

# Blue Evolution®

POWER STEAM TO BUSINESS

# Time, money, performance

## Clear advantages

### Efficient cleaning process

suction and washing in one process

### Low operating costs

no cleaning agents or additional cleaning tools required

### 60 % faster

cleaning of all surfaces with just one device

### 93 % less water compared

to conventional cleaning methods

### Consistent cleaning power

permanently fresh steam from clear water thanks to separate dirty water tank

### HACCP-certified devices

recommended for professional cleaning in the HACCP environment

### Sanitation

proven to reduce germs by up to 99.9 % (LogStufe 2.89 ± 0.15)

## Multiple benefits

Extend the efficiency in your firm to cleaning as well. The innovative BlueEvolution steam cleaning system stands for process optimisation of a very special kind. The successful formula is very simple: a better cleaning result than before, in less time. This pleases cleaning staff and controllers alike.

# BlueEvolution

## The revolution in commercial cleaning

### Thorough

The **BlueEvolution XL+** is the ideal cleaner for your commercial space. With an output of 7,200 watts, steam pressure of 145 PSI and a steam temperature of 356° Fahrenheit, the **Blue Evolution XL+** can keep on cleaning long after other machines have given up. The innovative machine concept with robust housing, stainless steel front and four

freely moving castors, make the **XL+** the flexible cleaning pro, bringing cleanliness to the furthest corners of your production and warehouse facilities. Whether for machine cleaning, for working platforms, in administration, in healthcare and in the catering industry, the **BlueEvolution XL+** always gives its all.

### The pros for tight spaces

The **BlueEvolution S** might be slightly less powerful than its big brother, but it makes up for it in agility. Thanks to its reduced dimensions, the **BlueEvolution S** always stands tall whenever space gets tight.

With a steam pressure of 116 PSI and a steam temperature of 347°F the **BlueEvolution S+** has an extra boost of power. Like its siblings, the **BlueEvolution S+** is only filled with clear water, making it one of the most eco-friendly cleaning machines around.

# Power on wheels

## Strong functions – strongest performance

### Accessories box

With the BlueEvolution you have everything to hand. Nozzles and brush attachments are stored in the well-designed accessories box. One simple step and you're off.

### Fill level display

The fill level display integrated in the housing of the BlueEvolution XL<sup>+</sup> means users can always see the current water level at a glance, which makes work easier when you're using the machine in large spaces. Timely refills save long trips to the next water source.

### Clear control panel

The clear display of the BlueEvolution ensures full operational control. The user can always check all the status displays at a glance.

### Water filter with blue light

Germs have no chance: The water filter of the BlueEvolution range also has a blue light effect to kill germs. So you get double hygiene in one machine, at no extra charge.

## Make steam

We have revolutionised commercial cleaning with the professional machines of the BlueEvolution range: our innovative and HACCP-certified BlueEvolution range – comprising BlueEvolution XL<sup>+</sup>, S and S<sup>+</sup> – delivers clear time savings and the highest hygiene. You can confidently forget all about using cleaning agents.

UV light effect

## green cleaning

### Naturally clean

The multifunctional steam cleaner is only filled with clear water. This means users not only save on the cost of cleaning agents, but also protect the environment by doing away with harmful substances. Water consumption is reduced by around 93 % compared to conventional cleaning with buckets and cloths. This is pure green cleaning.

### Stainless steel housing

With the robust stainless steel housing and its stainless steel front, the BlueEvolution not only cuts a fine figure in your company, but also guarantees reliability when used by different staff. The solid design means the BlueEvolution is shock-resistant and extremely stable. Now also available in a full stainless steel model.

### Castors

Large, freely moving castors make the BlueEvolution mobile and flexible. It always performs well even on uneven surfaces. The front castors can be locked using a wheel lock. The revolving mechanism can also be fixed on the rear rollers.

# Sanitation

thanks to clear water

Full power for a deep sanitation.  
Kind to the environment.

The **BlueEvolution** is kinder to the environment than almost any other cleaning system. It is only filled with clear water and minimises water consumption thanks to the steam pressure. There is no need for any harmful or really aggressive chemicals.

The applications of the **BlueEvolution** are practically limitless. The **BlueEvolution** really comes into its own in areas of high public traffic. Even large areas can be cleaned efficiently and quickly with little effort. The **BlueEvolution** is certified for use in the HACCP environment, guaranteeing results that are hygienically clean. Pathogens don't stand a chance!

# Cleaning revolution

for all industries

Catering

## HACCP-certified

The **BlueEvolution** removes absolutely all product residues.

Industry

## Process optimisation and occupational safety

Create a safe and clean working environment thanks to the high cleaning power of the beam **BlueEvolution** machines.

Traffic

## Special vehicle cleaning

You can save any amount of time and money with efficient interior cleaning, with no chemicals of any kind.

Health

## Kills up to 99.9 % of germs

Ideal for cleaning in medical practices, care homes, labs and other healthcare facilities.

Fitness

## Gyms, saunas and spas

It's good for people to sweat. And thanks to the **BlueEvolution** it's no longer a problem for others. All equipment and contact surfaces can be cleaned perfectly.

Craft

## Masterful results

An immaculately clean construction site is your calling card, ensuring your customers recommend you.

Trade

## Gleaming sales areas

The **BlueEvolution** is ideal for supermarkets and all retail stores.

Countless other possibilities.  
Find out at  
[www.beam.de](http://www.beam.de)

## HACCP qualification certifies the highest cleaning power

Clever use of the **BlueEvolution** is one of the keys to preventing infection – in labs, medical practices and catering areas

# BlueEvolution. The super power of steam.

## COMPANY

### ABOUT US

BlueEvolution is a strategic partnership between TPA Spa Italy and beam GmbH Germany. Since 1987 we invent and produce in Italy innovative Steam-Vacuum Cleaning Machines for Industry, Commercial and Domestic.

We are one of the most innovative providers of cleaning solution systems and committed ourselves to be as sustainable as possible.

That means responsible handling with all resources, in our company and private parts of life.

We live our belief in an outstanding service, friendliness and honest collaboration.

We want to be Simply the Best. We want to work with you in a further common daily cleaning business.
